COURSE SETTER COMMENT:

The event will take place in a small traffic area but be careful about cars and other people, especially in the housing parts.

The main road, next to the shopping center (paved area, heavy traffic) is prohibited, use the mandatory crossing points (710. Crossing point). Side walks are allowed.

Be ready for some multi level and tricky areas.

There will be artificial fences! Those are NOT marked in the terrain - please remember fair play!

Long and medium course will go across the railway using this bridge.

Good race!
